March 3, 2023

Dear Mr. Lutnick,

On behalf of KidZone TV at Mount Sinai Kravis Children's Hospital and our patients and families, I want to thank you for your wonderful visit. You and your group of volunteers made a true impact on our pediatric patients and families.

Technology and gaming bring a sense of normalcy to our patients spending time in the hospital. It also helps our patients to interact with young volunteers like you, with whom they can relate to and feel a sense of connection with. Your generosity was amplified with the prizes you brought for the patients! Not only were our individual bingo winners extremely affected by their prizes of gaming systems and games, but so many more patients have benefitted from the VR headsets you have gifted the department. These will be in use and available for teens via sessions with our staff and in our teen room.

The Child Life department strives to meet the emotional and psychological needs of seriously ill children through a wide range of therapeutic, recreational and educational interventions. It is with support like yours that our program can continue to enhance the hospital experience for countless children here at Mount Sinai. Once again, thank you for your support.

Thank you and your team for the impact you've had on our patients. We hope to welcome you back soon!

Sincerely,

Lu
