New York, NY 10022

Dear Ryan,

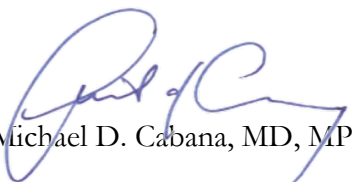

It was an honor to meet you, Jack, and Sam during your visit to the Children's Hospital at Montefiore. Your extremely generous donation of laptops and toys will bring many smiles to the faces of our pediatric patients.

Your gift is truly meaningful to our program as many children arrive at our doors with little understanding of what lies ahead. Now, our nursing staff can help quiet anxious thoughts or calm stressful times with the aid of games on an iPad or a Nintendo Switch, while patients wait for an MRI or procedure. Your gifts are making a difference in the care of every patient within CHAM.

You mentioned that your siblings have also taken on the responsibility of donations throughout the years. This continuity means so much to all the staff and faculty here, who we respectfully describe as a "CHAMily." We are proud that your family is also a part of our CHAMily.

Please contact me if you have any questions or would like to visit again. Thank you again for coming to visit.

Sincerely,

Michael D. Cabana, MD, MPH
